## Full Stack Developer

Surat Gujarat, India | +91 97237 54142 | harkhanisagar40@gmail.com  
Portfolio: [sagarharkhani.vercel.app](#) | LinkedIn: [linkedin.com/in/sagar-harkhani](#)

### PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable, high-performance web applications using JavaScript, Node.js, React.js, MySQL, and MongoDB. Focused on clean, maintainable code and practical business solutions across ERP, automation, and customer-facing products. Experienced with Git-based collaboration and AI-assisted development, while reviewing, testing, and maintaining code quality before delivery.

### CORE SKILLS

**Languages & Frontend:** JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, HTML, CSS, Tailwind CSS, Bootstrap, jQuery

**Backend & APIs:** Node.js, Express.js, REST APIs, API Integration, GraphQL, Laravel

**Databases:** MySQL, PostgreSQL, MongoDB

**Cloud & DevOps:** Docker, Nginx, Apache Server, Networking, Operating Systems

**Automation & Productivity:** n8n, Notion, AI-assisted development tools

**Practices & Tools:** Git, GitHub, Postman, Jira, Responsive Design, Manual Testing, Problem Solving

### PROFESSIONAL EXPERIENCE

#### Software Developer — Logicode Software LLP

May 2026 – Present

- Develop and maintain an Accounting ERP product, resolving client issues, fixing bugs, and delivering features based on business requirements.
- Use AI-powered coding tools for debugging and implementation while manually reviewing and testing changes to maintain code quality.
- Collaborate with the team to understand client needs, provide practical solutions, and deliver work within deadlines.

#### Software Developer — iGeek

Jan 2026 – May 2026

- Developed AI automation workflows in Node.js, integrated APIs, and automated recurring work in Notion for client projects.
- Built and maintained automation solutions that reduced repetitive manual work and improved workflow efficiency.
- Designed a responsive company portfolio using Vite, TypeScript, Tailwind CSS, and modern frontend practices.

#### MERN Stack Developer — SoftStorm Technosys Pvt. Ltd.

May 2024 – Dec 2025

- Built and maintained MERN Stack applications using clean code and organized project structures.
- Used Git and GitHub for version control, code reviews, and collaboration across multiple projects.
- Worked with project leads and clients to understand requirements, communicate progress, and deliver tasks on time.

### PROJECTS

#### rentifai.com — Rental Website | Live: [rentifai.com](#)

Tech Stack: React, REST APIs, Responsive UI

- Built a platform connecting car owners and renters for online bookings, improved responsive UI, and integrated APIs for smooth rental-data interactions.

#### codechain.in — Company Website | Live: [codechaintech.com](#)

Tech Stack: HTML, Tailwind CSS, jQuery, MySQL, SMTP, Apache

- Developed a responsive company portfolio, integrated SMTP email, and deployed the application on an Apache server.

## PROJECTS
